

REFUGEE RELIEF IS DISCUSSED

New Committee Organized at the Suggestion of Red Cross Representative.

A thorough canvass of the Mexican refugee situation will be made at once by United States immigration inspectors under the direction of P. W. Berkshire, supervising inspector for this division. The report will set forth the number of refugee families here who are destitute, and will show such other data as may be needed in order to formulate a definite plan of relief for those who are found to be deserving.

Cases of extraordinary distress requiring immediate relief will be referred to a committee composed of Dr. C. F. Braden and A. Schwartz, who will try to find a way to meet the pressing need out of whatever funds may be available in the hands of the local representatives of the American Red Cross or in the Amigo Lister fund.

A report on the general situation will be made to Red Cross headquarters in Washington as soon as the data can be gathered through the immigration office.

Advice of Red Cross Agent.

These arrangements were made at a meeting Wednesday at the chamber of commerce, which was attended by Dr. H. E. Stevenson, chairman, and Dr. C. F. Braden, secretary, of the American

Red Cross, El Paso chapter; P. W. Berkshire, supervising inspector of immigration; A. Schwartz, E. C. Davis and H. B. Shier. The meeting was called by Dr. Stevenson in accordance with the recommendation of Charles J. O'Connor, director of the Pacific division of the American Red Cross, who recently spent some time here looking into the refugee situation, and forwarded his report to Washington before he left for San Francisco, his headquarters.

Mr. O'Connor was authorized to offer \$500 to an El Paso relief committee for relief work among refugees on condition that El Paso should contribute an equal amount. He recommended that a new committee be constituted, which should be independent of existing agencies and yet work in entire harmony with all relief agencies having to do with the refugee problem. In his final instructions to the organization of the committee Mr. O'Connor said: "It shall not establish a broad line but shall aim to remove families as completely as possible from the ranks of the destitute by finding employment for them, by returning them to Mexico, or by other means."

It is understood that the Red Cross will make no further contribution unless it be shown that the problem is a national and not a local one.

Mexico Wants Minors.
At Wednesday's meeting, Dr. Stevenson, who has just returned from the Santa Barbara mining district of north-

ern Mexico, declared that the mines in that section would gladly employ 1000 men at once if they could get them. He said that the use of Villa currency presented no special difficulties as goods were sold from the commissary in this currency and wages were not materially less in buying power than they were before the revolution began, owing to the absorption of the loss by the companies. The committee agreed that it would greatly simplify the local problem if the unemployed men among the refugees could be induced to go back and take their families with them; but it was deemed doubtful if many would go even if free transportation were furnished.

Officials Absent.
Many phases of the general relief problem were discussed, and its difficulties could not be evaded. The function of the new committee for the present is chiefly to investigate and recommend a plan of action. Mr. O'Connor specified that the committee, to receive Red Cross cooperation, must consist of the ranking military officer here, the chief of division of the immigration service, the mayor, and the president of the chamber of commerce, or such persons as those named might designate, together with the chairman and secretary of the local Red Cross chapter, and three other citizens. There were so many absentees from the Wednesday meeting that no permanent organization was effected.

BANISH SCROFULA
Hood's Sarsaparilla Cleanses the Blood, Skin Troubles Vanish.
Scrofula eruptions on the face and body are both annoying and disfiguring. Many a complexion would be perfect if they were not present!

This disease shows itself in other ways, as blemishes in the neck, inflamed eyelids, sore ears, wasting of the muscles, a form of dyspepsia, and general debility.
Ask your druggist for Hood's Sarsaparilla. This great medicine completely eradicates scrofula. It purifies and enriches the blood, removes humors, and builds up the whole system. It has stood the test of forty years, and has received thousands of testimonials of the entire satisfaction it has given.

Scrofula is either inherited or acquired. Better be sure you are getting it free from it. Get Hood's Sarsaparilla and begin taking it today.—Adv.

Your Grandmother's Remedy for Purifying the Blood

And Renovating the System in the Springtime

ASK FOR SULPHUR TABLETS.

What was grandmother's unexcelled remedy? Haven't you heard of it? Yes, you have! It was sulphur, cream of tartar and molasses. The main trouble with it was its nauseous taste.

A modern method puts the cream of tartar and sulphur into a sugar-coated tablet and mixes them with herbs, roots, etc., making a wonderful tonic blood purifier and system cleanser.

Just try Sulphur Tablets (not sulphur tablets), but Sulphur—remember the name—and get the tablets in sealed tubes at 50c per tube. Grown-up people and children who don't feel well, who are constipated or sluggish, or who have pimples, boils, carbuncles, ulcers and the like, can soon rid the system of these impurities by taking this good old-fashioned remedy in modern form. Their action satisfies or money is refunded by the Prescription Products Company, Dayton, Ohio. A free trial sent to any address. Buy of any well-stocked druggist.—Adv.

HAIR STOPS FALLING, DANDRUFF DISAPPEARS—25 CENT DANDERINE

Save your hair! Make it soft, fluffy, lustrous and beautiful.

Try as you will, after an application of Danderine, you can not find a single trace of dandruff or falling hair, and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No dandruff, how it itches, betrays and scratches, just moisten cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance, an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that has been neglected or injured by careless treatment—that's all.—Adv.

BULGARIAN KING IS BACK

IN THE CATHOLIC FOLD

Rome, Italy, April 22.—King Ferdinand of Bulgaria, who was excommunicated from the Catholic church, has been taken back into the church by reconciliation. This is in conformity with the Observator Romano, the official organ of the Vatican. King Ferdinand was excommunicated when he permitted his son, Prince Boris, the heir apparent, to embrace the orthodox Greek church.

The constitution of Bulgaria provides that the sovereign must embrace the orthodox faith. In the case of Ferdinand, however, an exception was made and he was permitted to remain a Catholic. Prince Boris was born in 1894 and was admitted to the Greek church in 1896.

GEN. PERSHING RETURNS FROM BORDER INSPECTION; TO YUMA

Gen. John J. Pershing has returned from an inspection trip to Nogales and Yuma, Ariz. While at Nogales he inspected 11 companies of the 12th infantry and one company stationed at Yuma. Gen. Pershing held inspections and reviews of all the infantry companies and gave them a number of problems to work out while on his inspection trip.

At the arrest of Brig. Gen. W. L. Marshall, retired, Gen. Pershing visited the California Reclamation company's canal system and headquarters below Yuma, where the fight for the control of the Colorado river took place in 1907.

Gen. Pershing was accompanied by Lieut. James L. Collins, his aid.

86 EXPOSED TO TYPHUS

ARE REMOVED FROM SHIP

New York, April 22.—Physicians and surgeons, at quarantine, guarding New York from an invasion of typhus fever, now raging in Serbia and spreading to Greece, removed 86 passengers Wednesday from the steamer Thelios in from Piraeus, and sent them to Hoffman island for treatment. All showed evidence of vermin infection, by which the disease is spread.

Every passenger aboard was subjected to physical examination. Four cases of typhus have been found at Piraeus.

Dermatologist Gives Complexion Secret

"The great secret of keeping the face young is to keep off the dead cuticle," says Dr. J. Mortimer Mitchell. "It is well known that the surface skin is constantly dying, falling off in imperceptible particles, except in some diseased conditions, when the same process is retarded. But the particles do not all drop off immediately after they die, being held for a while by the live skin."

To have the dermatological surgeon part off the entire outer skin at one time is a painful and expensive operation. The same result is obtained by applying ordinary cosmetic preparations.

allowing this to remain on over night, then taking it off with warm water. One once usually suffices. The process is both painless and inexpensive. The wax, which is procurable at your drug store, hastens the natural shedding process. It gradually absorbs the dead and half-dead skin, revealing the new, healthy, youthful-looking skin underneath.—Advertisement.
